Front face kit for 1 element with 2 gloss black keys Simon 100

REF. **10020103-138**

BASIC INFORMATION

DESCRIPTION

This kit is from the Simon brand, it is the front face kit necessary to complete the installation of separate mechanisms in 2 parts. In this case, it is the front of a mechanism supplied with current by an element and delivered with 2 buttons to operate it. This kit is installed recessed in the wall, designed for mechanisms of 250 volts and 10 AX of intensity. The mechanisms of the Simon are distinguished by the combination of technique and new technologies with the appearance. In this case, this kit is presented in a beautiful black color that brings modernity to any room it is in. The system offered by Simon is very user-friendly and easy to handle. It is therefore composed of two keys designed to be easily activated by hand. The keys are exactly the same, which allows for easy interaction with the user. Its construction materials are of the highest quality, which prolongs the life of the product.

FINISH

Gloss black
