

Single rocker with bell symbol for push button white Simon 75

REF. 75017-36

BASIC INFORMATION

DESCRIPTION

Designed with a rectangular shape of simple lines, the individual rocker with bell engraving is converted into the detail end that it provides to all the electrical mechanism, the perfect finish for a minimalist design that adapts to all types of spaces. In a intense and stylish white colour with finishes in bronze, the individual rocker for push-button switch consists of 1 element and is made of thermoset materials for greater protection in case of fire. Thanks to this material, it can reach a maximum temperature of -25 to 50 °C. It is designed for installation both recessed and surface-mounted, to maximize the versatility of the product, and to facilitate the integration of the set in the space, adapting to the needs aesthetic, functional and technical of each room.
