

Base for surface mount box for frame with 3 rows for 6 elements white Simon 27 Centralisations

REF. 27862-35

BASIC INFORMATION

DESCRIPTION

It is a surface-mounted box socket for frames consisting of 3 rows in which 6 elements can be coupled. This mechanism is part of the Simon 27 Centralizations series. This collection stands out for the functional character of its elements, the boxes are linked through intermediate parts, which results in an expansion of the installation and, therefore, greater functionality. Specifically, this box socket is finished in white and has dimensions of 250x150x40 mm, the piece is made of thermoplastic, a material that shows great resistance against knocks and also to extreme temperatures. However, it is ideal to install this socket surface-mounted box in spaces between 5 and 40°. Due to its design, the installation must be carried out horizontally. With regard to cleaning, you only need to use a soft cloth slightly moistened in soapy water.

FINISH

White

MATERIAL

Plastic

COMPATIBILITY

Simon 75, Simon 27 Play and Simon 75* (check compatibility) mechanisms

PACKAGING CONTENTS

Surface-mount box base 12 elements.
