Interchangeable case for 4 elements frame transparent Simon 27 Play

REF. **2700647-108**

BASIC INFORMATION

DESCRIPTION

The transparent interchangeable frame cover has become one of the references of the Simon 27 Play range, with a compact appearance and measuring 86x306 mm, making it ideal for smaller spaces. This cover is suitable for flush mounting, both horizontally and vertically, and consists of eight modules. Manufactured in thermoplastic material of high thermal resistance, it is available for 1, 2, 3 or 4 elements. This sleeve is perfect for performing reliable installations in time. In addition, another advantage of this surface-mounted box is that it is very discreet in any type of installation in homes or companies. Like all products in the Simon 27 Play series, this product complies with the current regulations in force that regulate electrical mechanisms and accessories in fixed electrical installations for domestic use.

FINISH

Transparent
