

Double rocker with bell symbol for set 1 2-way switch and 1 bell push button aluminium Simon 75

REF. 75027-33

BASIC INFORMATION

DESCRIPTION

Balance, simplicity and functionality are combined with the most innovative design in Simon 75 series products. All these qualities can be found in the double Rocker with bell symbol for group, a 2-way switch and a push-button switch of bell in aluminium included in this range, like the rest of the products in this series, as they are made of thermoset plastic, this product has some advantages over those made of thermoplastic: More resistance to impacts and extreme temperatures. Available in the following finishes: Snow white, ivory, grey, graphite, aluminium and bronze, this rocker is suitable for position, place on the surface and to be recessed in the wall. This is why this product has a high durability in time, which makes it a very interesting option for anyone looking for elegance and efficiency at the same time at the best price.
