

Cover for flush mount cylindrical fuse-holder mechanism 8x32 mm white Simon 28

REF. 28056-30

BASIC INFORMATION

DESCRIPTION

Cover for the mechanism fuseholder recessed cylindrical type 8x32 mm, of the series Simon 28. This cover is suitable both for surface and flush mounting, in places with a temperature located between 5 and 40°C, approximately, although it is also capable of withstanding extreme temperatures of -25 to 50°C, making it perfect for any type of climatology. It is manufactured with thermoset material, a material whose maintenance is quite simple, as you will only have to clean it with a soft cloth slightly moistened in soapy water, without having to use any cloth or abrasive cleaner with chlorine, because if you use a product of this type, you could damage and does not operate. The series Simon 28 offers a perfect integration, thanks to its frame curvilinear is integrated in a discreet in any project architectural, in addition to having a different design and a character of our own.
