

Adjustable cross-shaped connector

REF. 89941230-039

BASIC INFORMATION

DESCRIPTION

To achieve an ambience suitable for the development of any type of activity has to light as one of the most important elements for this purpose. It is necessary in each situation to have an incident directly in the results of the activity we carry out. To always have a lighting of interiors, ideal in public and private buildings, we have the best ally in the adjustable Cross-shaped connector in white colour Simon. As far as its installation is concerned, it is carried out quickly in a comfortable and simple way on a 3-phase rail. This is an accessory designed to be used with different products included in the different series of Simon, which also stands out for its structure resistant and durable. A multitude of public and private buildings already have this element in their electrical installations.
