

Flat voice and data plate with dust cover for 2 AVAYA® RJ45 connectors grey Simon 27 Play

REF. 27487-37

BASIC INFORMATION

DESCRIPTION

Available in three finishes, so it is recommended to choose the frame with the same baseboard colour as the rocker selected, the flat voice and data plate with dust cover grey of the Simon 27 Play series is one of the most demanded by professionals and individuals. This is a plate made for two RJ-45 format connectors. Also, it is compatible with AVAYA connectors and 45x45 mm are its measures, being suitable for surface and flush mounting. Another advantage is its easy cleaning and maintenance, which can be carried out with a soft and dry cloth to not affect the thermoplastic materials with which it has been manufactured. Thanks to these components the resistance is another of the great features of this plate. All this with the most competitive price you can find today.
