

Intermediate piece for 4 half elements (2 elements) brown Simon 27

REF. 27901-34

BASIC INFORMATION

DESCRIPTION

Intermediate piece for four half elements of the Simon 27 series is the piece separating each element for the low-order half, therefore, in total is optimal for two elements that would form four high-order. This piece includes four modules and is perfect to be recessed. As for the temperature range that support the Simon 27 series, varies between -25 to the + 50 degrees centigrade. This piece of separation between half elements, it has a stylish finish brown in colour and is made of isolated thermoplastically. So it guarantees maximum security during their use, avoiding the possible flame spread in case of fire. The intermediate piece for the frames that requires the installation of half elements can be installed it both vertically and horizontally, enhancing the versatility and the functionality of the product, maintenance is the same as that of any frame of the Simon 27 series, i.e. do you clean with abrasive cloths dampened with soap and water. The trim for these parts pieces are the frames of the same range and are available with capacities variables (for 2, 3 and 4 half elements).

FINISH

Brown

COMPATIBILITY

Simon 27 Play mechanisms
