REF. 75041-65

BASIC INFORMATION

DESCRIPTION

This cover of the Simon 75 series products is designed for a Schuko socket outlet and has a safety device. Its installation is carried out by means of recessed or directly in surface-mounted, so that it is very easy to install. Simon is committed to products versatile and multifunctional, which, in addition to complying with the purpose for which they were created convert in decorative elements of the rooms where they are located. So there is a wide range of colours and possible combinations between the you select. In this case, the plate is of a white colour that the integrate seamlessly into any type of decorative appearance. However, it is necessary to highlight the product is available in seven different finishes, it is advisable to choose a frame with the same baseboard colour of the selected rocker. This is not will break with the appearance of the end product. The plate is manufactured from thermoplastic material that gives it an extra hardness and resistance and increase security.
