

3-phase rail 3 m

REF. 89920333-039

BASIC INFORMATION

DESCRIPTION

This 3-phase rail of the brand Simon responds to the latest technology in terms of installations and electrical panels. This is the perfect product to move, increase or decrease the light points, without removing the product that has become outdated and switch it by other new. In this case, in addition to its great amplitude, 3 metres, allows multiple possibilities. Thanks to this novel system, the user will be able to give free rein to their creativity to compose any electrical diagram to be. Also, the Simon brand in its stock with all complements necessary to develop any diagram. In this case the 3-phase rail, it comes in white finish, a colour that can be combined with virtually any electrical system. This article is used for both lean on surfaces of wall or ceiling and quality materials make it highly resistant. Also, it has a feature that makes it even more secure, and is its ability self-extinguishing that does not propagate the flame in case of fire.
