

## Frame for 1 element gloss green without claws and with frame holder Simon 27 Neos

REF. 27771-32

## BASIC INFORMATION

### DESCRIPTION

The Simon 27 Neos series of frames with products very versatile and functional. This is the frame for a single element, finished in bright green colour without claws and with frame-holder. The frame has two modules and can be installed in two ways, since it is optimal to be recessed and surface-mounted. These frames Simon support very variable temperature, ranging from the most low up to the highest (-25 to + 50 degrees centigrade.) an important characteristic of the product is that it is made of a thermoplastic material and metallic frame-holder. These components, they bet for the security, guaranteeing the sealing in the event of a fire, incidental. The frame is part of the Simon range Bright and it can be installed both horizontally and vertically. With a compact measures 86 x 93 millimetres, this frame is converted into a perfect solution to give a very modern appearance to any room. The frame in question does not require an intermediate piece and the type of trim necessary commitment to the mechanisms, plates and most common covers.
