Adaptor plate white Simon 75

REF. **75088-30**

BASIC INFORMATION

DESCRIPTION

With a square size of 45 x 45 mm, we present this adaptor of elements, finished in white colour, for the Simon 75 series. This plate is made of thermoplastic material and does not include any type of engraving. For its correct installation, it is necessary to use a universal recessed box or, failing that, a baseboard surface-mounted. It is also available in ivory and graphite colours. It is recommended that the frame chosen for this part has the same baseboard colour as the rocker selected. With the collection Simon 75, the habitability of the different spaces improves substantially because it responds precisely to the needs of each cabin. Diverse colors in the same frame will facilitate multiple combinations to form the ideal set that best adapts to the different needs of users. Instructions for proper cleaning: Use a soft cloth and slightly moistened in water with soap.

FINISH

White

MATERIAL

Thermoplastic

PACKAGING CONTENTS

Plate

SYMBOL

Without engravings

COMPATIBILITY

Simon 75 and Simon 27 mechanisms

ETIM CLASS

EC000011
