

3-phase flush mount rail 1 m

REF. 89930130-039

BASIC INFORMATION

DESCRIPTION

Campus universitarios and residential, hotels and holiday resorts or educational for the development of all types of activities sports and leisure are some of the public and private buildings that already enjoy all the qualities present in the Rail 3-phase suitable for flush mounting with a length of a meter included in the wide Simon catalogue. The quality of the materials with which its structure has been manufactured is another of its great attractions. This is a white in colour designed to offer the best solutions for indoor lighting short whose competitive price is one of its great advantages. For all these reasons, it is one of the products for indoor lighting projects masonry included in most new and refurbishment projects in homes personal, headquarters of companies and commercial premises, not having rival from other similar products manufactured by other competing companies.
