

Frame for 3 elements graphite Simon 82

REF. 82832-32

BASIC INFORMATION

DESCRIPTION

The Simon 82 series presents its new finished in graphite. This series has a wide range of textures that you can add the graphite. A perfect product to clear contrast with surfaces or to combine with the furniture in the home or office. This series stands out for its innovative features and its minimalist design, capable of adapting to any type of space. It has 3 elements, although it is also available for 1,2 and 4. Thanks to this, you can control the different electrical functions from a single space. It is colorful series offers multiple combinations, although we at Simon we recommend using the graphite finish for rockers and covers. Product suitable for surface and flush mounting measuring 229 x 89 millimetres. This frame is manufactured in thermoplastic, so that has a great resistance to the knocks and to extreme temperatures. For optimum conservation we must avoid the use of abrasive cleaning products.
