IP66 watertight raised floor box kit with 1 schuko socket outlet + 1 RJ45 connector category 6 UTP and sheath

REF. **KGH116URF/72**

BASIC INFORMATION

DESCRIPTION

Simon has completely revamped its range of waterproof floor boxes for indoor and outdoor environments. This is a kit that includes the manual closure mechanism frame with 1 Schuko socket and 1 RJ45 category 6 UTP connector, to be integrated into the included basin for installation in a raised floor with cutting dimensions of 125 x 125 mm. The product design, combined with its stainless steel mechanism frame, achieves a robust, solid, and secure installation as it can withstand a water jet of 1 kg/cm^2 from any direction, reaching an IP66 protection rating when the lid is closed. It also supports a maximum load of 1500 kg and an IK08 impact resistance. It maintains an optimal bending radius for high category voice and data connections. Our accessory for plug connection with a closed cover is available, allowing us to keep our connections active with an IP54 (see reference KFA1001), the possibility to level our box in case of an irregular floor (see reference KFA1003), or the ability to link multiple boxes (see reference KFA1002).
