

Single rocker for blinds mechanism with 3 positions (up, down and stop) graphite Simon 88

REF. 88033-38

BASIC INFORMATION

DESCRIPTION

Do you want to control blinds in a comfortable and functional? Simon offers us this individual rocker for bind mechanism with 3 positions (up, down and stop) of the series Simon 88. The finish of this piece, it is in graphite colour, although it is available in two colours more. This piece is an individual version for one element that has a size of 68,3 millimetres diameter and includes an engraving of the up / down for ease of use. A perfect solution to be able to control the blinds, both in the home such as the workplace in a simple way, without physical effort and from the same place. All this with a great design of shapes circular as characteristic of the series Simon 88. It is a rocker of great durability and very easy maintenance, since it is made of thermoplastic, a material very resistant to the knocks and to the temperature changes. We must avoid the use of abrasive cleaning products containing chlorine.
