

Single rocker with bell symbol for push button white Simon 75

REF. 75017-35

BASIC INFORMATION

DESCRIPTION

Giving a precise response to the new demands that appear on the market every day with numerous functions that provide comfort and security to the rooms of a home or the departments of a company is one of the objectives of the Simon 75 series products. Also in the individual Rocker with bell symbol for push-button switch in white, a mechanism valid for the articles included in the Simon 75 series is available in the following finishes: Snow white, ivory, grey, graphite, aluminium and bronze. Suitable for surface and flush mounting, this piece has been made with the best thermoset materials, which translates into an effective performance in low and high temperature environments. This characteristic has turned it into one of the most widely installed parts in large buildings such as hospitals, schools, shopping centres or the headquarters of companies and public administrations.
