

Frame square for 1 element gold Simon 88

REF. 88612-36

BASIC INFORMATION

DESCRIPTION

The Simon 88 Range, breaks with all the preconceived ideas in electrical installations. The mechanisms of this high range, the possibility to design an installation with a sharp and defined personality. The Simon 88 series with their shapes rounds in the rockers give it a novel and stylish appearance, complement their modern frames with circular and squares. Frame, 1 element, square, for Simon 88 gold. The gold finish is recommended for rockers and covers. Suitable for surface-mounted and recess dimensions of 85 x 85 mm. In those environments where you need it, high quality, design and functionality, these frames that can be squares and rocker round, or completely rounds in frame and rocker, guarantee a special touch.
