IP66 watertight raised floor box kit with 2 french socket outlets + 1 narrow blind cover and sheath

REF. **KGH220RF/74**

BASIC INFORMATION

DESCRIPTION

Simon completely renews its range of waterproof floor boxes for indoor and outdoor environments. This is a kit that includes the manual closing mechanism frame with 2 French sockets and 1 blank K45 plate of 22.5x45mm, designed to be integrated into the included basin for installation in technical flooring with cutting dimensions of 174 x 125 mm. The product design, combined with its mechanism support frame made of stainless steel, ensures a robust, solid, and secure installation as it withstands a water jet of 1 kg/cm^2 from any direction, achieving an IP66 protection rating when the lid is closed. It also supports a maximum load of 1500 kg and has an IK08 impact resistance. It maintains an optimal cable bend radius for high-category voice and data connections. Our accessory for plug connection with a closed lid is available so that we can keep our connections active with an IP54 (see reference KFA1001), the possibility to level our box in case of having an irregular flooring (see reference KFA1003), or the ability to concatenate more than one box (see reference KFA1002).
