Angled voice and data plate with dust cover for 1 AMP® RJ45 connector aluminium Simon 73 Loft

REF. **73085-63**

BASIC INFORMATION

DESCRIPTION

Plate of voice and data tilted plate for 1 RJ45 connector AMP ®, with dust cover and finished in aluminium colour of the Simon 73 Loft series. This Simon 73 Loft series features a very modern design, thanks to its 3 finishes in matt aluminium, graphite and white, which represent new decorative trends for spaces that require installations no civil work, but keeping a high level of integration appearance. It measures 55x55 mA and is made of thermoplastic, a material that you will be able to clean, just use a soft cloth slightly moistened in soapy water, forgetting of abrasive cleaners and cloths containing chlorine, because if you use this type of products with chlorine, the plate is could damage and does not operate correctly. It can be installed in rooms with a temperature of between 5 and 40ºC, although it can withstand, perfectly, extreme temperatures of -25 to 50ºC, approximately.

FINISH
Aluminium

MATERIAL
Plastic

PACKAGING CONTENTS
Plate

SYMBOL
Without engravings

COMPATIBILITY
Simon 73 Loft mechanisms

ETIM CLASS
EC000018

REMARKS
Available in 3 finishes. It is recommended to choose a frame the same colour as the selected plate.

TECHNICAL INFORMATION

AVAILABLE MARKET
CE

COMPATIBLE WITH CONNECTORS
