Angled voice and data plate with dust cover 1 element for 2 RJ45 white Simon 500 Cima

REF. **50000086-030**

BASIC INFORMATION

DESCRIPTION

Plate for connection voice and data of an element for 1 and 2 RJ45 connectors, belonging to the collection Simon 500 Cima. It is manufactured with halogen-free thermoplastic materials, which allow the no-propagation of the flame in case of fire management and smoke. In a plate, with dust cover and finished in white colour. Also includes clips for fastening, either vertically or horizontally, without the need for adapter. Simon 500 Cima Series has one of the installation systems faster, through a click terminal connection. It is only necessary to perform the following steps: Insert, tighten and ready!, without the need to strip the wire. This series also has a centre frame system for independent installation of the electrical circuit and voice and data. Simon 500 CIMA is therefore the solution for the most demanding needs of the market, in addition to having a system which saves up to 50% on installation time.

FINISH

White
