Intermediate piece for 1 element graphite Simon 75

REF. **75918-39**

BASIC INFORMATION

DESCRIPTION

Intermediate piece for 1 element in graphite colour and corresponding to the Simon 75 series. The Simon 75 series is made up of frames with 13 different finishes, parts pieces in 15 colours and rockers in 6 colors that will allow you to perform an infinite number of combinations. The design in the form of a rectangle of the trim frame allows us to adopt two different aesthetic shapes, a series suitable for the most varied tastes. The Simon 75 Series, it is compatible with the mechanisms of the Simon 77 series, so you will not need to strip cables to connect, not braiding or using additional tools to attach them. This part is suitable for installation both in surface-mounted and recessed form horizontally and / or vertically and has been manufactured in thermoplastic. To clean this piece in graphite colour just use a soft cloth, slightly dampened in soapy water and do not use abrasive cloths or cleaners containing chlorine in its formulation, as it could be damaged the piece and does not operate correctly.
