

Intermediate piece for 4 half elements (2 elements) gold Simon 27

REF. 27906-34

BASIC INFORMATION

DESCRIPTION

This intermediate piece for plates in which fit 4 half elements or 2 wide elements is included in the Simon 27 collection. Its colour gold finish makes it perfect for the most select and distinguished environments. It is precisely this series that provides a differentiating touch with its mechanisms, the piece is suitable to be recessed and has been manufactured in galvanized thermoplastic, due to its neutral lines design, it is an article that adapts perfectly to the most modern and functional homes. Whatever your style, you will surely find in this collection a mechanism that fits your preferences. Moreover, its installation is very simple and can be placed horizontally or vertically, as the user prefers. To clean it, use a soft, dry cloth, but avoid chlorine-containing cleaners. This intermediate piece, like other mechanisms in the series, complies with the regulation.
