

Double rocker for switches white Simon 28

REF. 28026-30

BASIC INFORMATION

DESCRIPTION

Double rocker, finished in white colour, series Simon 28 and that is used to control mechanisms. This rocker is made of thermostable material, a material that facilitates its cleaning since you just need to wipe it with a soft cloth and slightly moistened in soapy water, without having to use never abrasive cloths or cleaners that contain chlorine in their formulation, as they could cause the rocker is damaged. It can be installed both on the surface-mounted and is flush mounted and always in places with a temperature which is located between 5 and 40°C, approximately, although it can withstand, to perfection, extreme temperatures located between -25 and 50°C. The series Simon 28, thanks to be available only in white colour finish, responds to the projects in which you want to discretion and integration and is a series modern and shapes soft in the frame.
