

Telephone socket with 6 pins RJ12 aluminium Simon 31

REF. 31481-33

BASIC INFORMATION

DESCRIPTION

Without the telephone connections the life of today would be completely different. They are very present in both our working environment as in the staff. To avoid any problem with them we must take the telephone socket with six RJ12 pins finished in aluminium of the series Simon 31. It has dimensions of 64 x 65 mm With screw terminal connection and insertion operation, it supports a wire cross-section of 0.3 to 0.5 mm, it has a stripped wire 12 mm and its typology is Category type 3. It has been manufactured with metal components with halogen-free insulation and thermoplastic trim that provide metallic resistance to all kinds of knocks, impacts, as well as the deterioration of the high temperatures and the passage of time. This is one of the most used telephone sockets in both public and private buildings.
