

INFORMACIÓN TÉCNICA

· Los conectores UTP cumplen con los requisitos incluidos en la serie de normas IEC 60603-7 "Connectors for electronic equipment". Para asegurar el cumplimiento de las normas ISO 111801 "Information Technology", EN 50173 "Information Technology" y ANSI/TIA 568 C.2 "Balanced Twisted Pair Telecommunications Cabling and components standards", se deben montar e instalar según las siguientes instrucciones. Es importante conectar todas las formas de tierra a un mismo punto eléctrico. Simon no es responsable si no se realiza bajo sus condiciones.

INFORMAÇÃO TÉCNICA

· Os conectores UTP cumprem com os requisitos incluídos na série de normas IEC 60603-7 "Connectors for electric equipment". Para assegurar o cumprimento das normas ISO 11801 "Information Technology", EN 50173 "Information Technology" e ANSI/TIA 568 C.2, "Balanced Twisted Pair Telecommunications Cabling and components standards", instalar os produtos de acordo com as seguintes instruções. É importante conectar todas as tomadas a um mesmo ponto elétrico. Simon não assume qualquer responsabilidade se as suas condições não forem observadas.

INFORMATION TECHNIQUE

· Les connecteurs UTP remplissent les conditions incluses dans la série de normes IEC 60603-7 "Connectors for electronic equipment". Pour assurer l'accomplissement des normes ISO 11801 "Information Technology", EN 50173 "Information Technology" e ANSI/TIA 568 C.2 "Balanced Twisted Pair Telecommunications Cabling and components standards", est nécessaire d'installer les produits suivant ces instructions du montage. Est important relier toutes les prises à un même point électrique. Simon n'est pas responsable si on ne suive pas ses conditions.

TECHNICAL INFORMATION

· Connectors UTP fulfill the requirements including in the series of norms IEC 60603-7 "Connectors for electronic equipment". In order to assure the fulfillment the norms: ISO 11801 "Information Technology", EN 50173 "Information Technology" e ANSI/TIA 568 C.2 "Balanced Twisted Pair Telecommunications Cabling and components standards", it is necessary to install the products following these assembly instructions. It is important to connect all to a same electrical point. Simon is not responsible in case of these conditions are not accomplished.

INFORMACJE TECHNICZNE

- Złącza UTP są zgodne z wymaganiami zawartymi w serii norm IEC 60603-7 "Złącza do urządzeń elektronicznych". Aby zapewnić zgodność z normami ISO 111801 "Information Technology", EN 50173 "Information Technology" i ANSI/TIA 568 C.2, "Balanced Twisted Pair Telecommunications Cabling and components standards", należy je zmontować i zainstalować zgodnie z poniższymi instrukcjami. Ważne jest, aby podłączyć wszystkie formy uzziemienia do tego samego punktu elektrycznego. Simon nie ponosi odpowiedzialności, jeśli nie zostanie to zrobione w danych warunkach.

TEKNISK INFORMASJON

- UTP-kontakter er i samsvar med kravene i standardserien IEC 60603-7 "Connector for electronic equipment". For å sikre samsvar med ISO 111801 "Information Technology", EN 50173 "Information Technology" og ANSI/TIA 568 C.2 "Balanced Twisted Pair Telecommunications Cabling and components standards", må de monteres og installeres i henhold til følgende instruksjoner. Det er viktig å koble alle former for jording til samme elektriske punkt. Simon er ikke ansvarlig hvis dette ikke er gjort under dine forhold.

TEKNISK INFORMATION

- UTP-kontakter oppfyller kraven i standardserien IEC 60603-7 "Connector for electronic equipment". For å sikkerstille overensstemmelse med ISO 111801 "Information Technology", EN 50173 "Information Technology" och ANSI/TIA 568 C.2 "Balanced Twisted Pair Telecommunications Cabling and components standards", måste de monteras och installeras enligt följande instruktioner. Det är viktigt att alla former av jord ansluts till samma elektriska punkt. Simon är inte ansvarig om detta inte görs under dina förhållanden.

INFORMAZIONI TECNICHE

- I connettori UTP sono conformi ai requisiti della serie di norme IEC 60603-7 "Connettori per apparecchiature elettroniche". Per garantire la conformità alle norme ISO 111801 "Information Technology", EN 50173 "Information Technology" e ANSI/TIA 568 C.2 "Balanced Twisted Pair Telecommunications Cabling and components standards", devono essere assemblati e installati secondo le seguenti istruzioni. È importante collegare tutte le forme di messa a terra allo stesso punto elettrico. Simon non è responsabile se ciò non viene fatto nelle vostre condizioni.

TEKNISK INFORMATION

- UTP-stik overholder kravene i standardserien IEC 60603-7 "Stik til elektronisk udstyr". For at sikre overensstemmelse med ISO 111801 "Information Technology", EN 50173 "Information Technology" og ANSI/TIA 568 C.2 "Balanced Twisted Pair Telecommunications Cabling and components standards", skal de samles og installeres i henhold til følgende instruktioner. Det er vigtigt at forbinde alle former for jordforbindelse til det samme elektriske punkt. Simon er ikke ansvarlig, hvis dette ikke er gjort under dine forhold.

معلومات فنية

مع المتطلبات المدرجة في سلسلة معايير UTP تتوافق مواصفات IEC 60603-7 "مواصفات المعدات الإلكترونية" IEC 60603-7. تتوافق مع المواصفات ISO 111801 "Information Technology" و ANSI/TIA 568 C.2 "Balanced Twisted Pair Telecommunications Cabling and components standards". يجب تجميعها وتركيبها وفقاً للتعليمات التالية. من المهم توصيل جميع أشكال الأرضية بنفس النقطة الكهربائية. سيمون غير مسؤول إذا لم يتم ذلك في ظل ظروفك.
