

**Cover for voice and data flat plate with dust cover for 1
AMP® RJ45 connector matt champagne Simon 82
Centralisations**

REF. 82585-64

BASIC INFORMATION

DESCRIPTION

Cover for data and voice plate, in matt champagne (but available in 5 different finishes, of the Simon 82 series, Centralizations and that is used for 1 RJ45 connector AMP ®. With 1 element and with dust cover and it can be installed both flush mounted and surface-mounted and its cleaning is very easy to make since it will only need to wipe it with a soft cloth slightly moistened in soapy water and without having to use never abrasive cloths or cleaners that contain chlorine in their formulation, as they could cause is damaged and that does not worked correctly. The Simon 82 series Centralizations stands out because it offers many more electronic functions (adjustment of lighting, centralisation of blinds, temperature programming, sound and timing and clocks) in less space. Also, in this series, it is possible to highlight its versatility, since it can be installed in infinite spaces such as, for example: Hotels, restaurants, retail, kitchens, furnishings, bed headboards, work stations and control stations and / or, among others.
