

Single rocker for switches white Simon 82 Centralisations

REF. 82010-50

BASIC INFORMATION

DESCRIPTION

Single rocker for control mechanisms, this rocker has a simple and versatile finished in white colour, which makes it a perfect solution to be installed in any type of room. It is part of the Simon 82 series Centralizations, specifically to the catalog of rockers and covers of the brand. This rocker is available in a total of five different finishes, so it is advisable to choose the frame in the same baseboard colour as the rocker selected. In this case, the white colour for the frame would be the ideal option. It is of individual version, for a single element, which does not include any type of signaling function. The rocker Simon also has engraving on its design, it is possible to install the product of two shapes: Both in surface-mounted and flush-mounted on wall. To optimize its maintenance, just clean the rocker with a soft cloth and slightly moistened in water with soap.
