

Frame for small spaces 1 half element ivory with frame holder Simon 27 Play

REF. 27614-31

BASIC INFORMATION

DESCRIPTION

The Frame with frame-holder of the Simon 27 Play range is specially designed to be placed in small spaces that give energy to a single element. Therefore, its dimensions are 32 x 82 millimetres and consists of a single module. This frame is installed in a very simple way, surface-mounted or recessed, and in a horizontal position. The products of the Simon 27 Play range includes new colors so that the user can pick them according to their personal decorative tastes and needs of the cabin where it is to locate. Looking for always adapted to modern times, Simon, includes a varied range with modern colours such as this beautiful ivory colour, which in turn gives elegance to the product. The components of this frame are thermoplastic material highly resistant to high temperatures very low or, extending the life of the article and providing security. In addition, its maintenance is very simple and you just need to use to clean it with a cloth slightly dampened in water with some soap. It is not possible to use abrasive cleaning chemical or with chlorine, because it would harm.
