REF. **27097-31**

BASIC INFORMATION

DESCRIPTION

Designed for R-TV formats with a perfect combination of balance and simplicity, the Plate for R-TV + SAT inductive sockets, in ivory colour of the Simon 27 Play series is superb due to all its features. With dimensions of 45x45 mm, this is a perfect piece to install both recessed and surface-mounted, being able to choose in its four finishes, a circumstance that allows us to choose the frame with the same baseboard colour as the rocker selected. It is a perfect plate for the passage of time thanks to the thermoplastic materials with which it has been manufactured, which also translates into a range of minimum and maximum temperatures between -25 ° and 50 ° C. This has made it one of the best-selling R-TV boards. Impossible to find in the market more for less.
