

Neutral push-button switch 10AX 250V~ with housing for
pictogram and fast terminal connection system
champagne Simon 31

REF. 31659-34

BASIC INFORMATION

DESCRIPTION

Neutral push-button switch 10A current and 250V. Has housing for pictograms and it has a quick terminal system. It has a rocker operation. This push-button switch is part of the Simon 31 series and has a beautiful finish in champagne colour. The push button of the Simon 31 series are available in three different finishes, to ensure an enviable appearance, it is recommended to use the frame in the same colour as the rocker selected. In this case, the recommendation is resorting to the frame Simon in champagne colour. This is the individual version, for one element and two modules of the push-button switch, measures 64 x 65 millimetres and does not include any type of engraving. The wire section admitted is from 1.5 to 2.5 millimetres and the stripping of wire necessary is 11 millimetres. It is manufactured from metal materials, isolated thermoplastically and halogen-free. The trim is metallized thermoplastic. These materials are perfect for increasing safety during use, as they withstand very variable and extreme temperatures.
