

Telephone socket with 6 pins RJ12 white

REF. 75481-30

BASIC INFORMATION

DESCRIPTION

Belonging to the Simon 75 series we find this telephone socket with six RJ12 pins of socket white colour, the type of terminal connection is by means of a single connection, taking so an installation easy and comfortable. The manufacture is halogen-free with metal components with insulation, it also includes a thermoplastic trim. For this reason, it complies with the regulation TIA 568 C. 2, allowing it to operate with the component to temperatures between 5°C and 40°C. The installation can be done in a universal box, complying with this regulation is compatible for the series Simon 75, Simon 82 and Simon 88. The telephone socket provides more space for the installation of cables, and the electrical diagram allows visualizing the connection options and a great support thanks to the metal claws that it contains. The Simon 75 series is one of the most demanded by customers due to its high quality price because it offers a features inigualables with a design, comfort and usability in the range.
