

Single rocker for switches white Simon 88

REF. 88010-30

BASIC INFORMATION

DESCRIPTION

Break with the shapes established, is what it offers us the Simon 88 series. A series in which we find a circular frames and squares, but always playing with the shapes. The most remarkable of this revolutionary series is the rocker rounded that will not go unnoticed. This model is an single rocker for control mechanism white Simon 88. It has dimensions of 68.3 millimetres diameter. A piece that is made of thermoset, a material that can withstand the most extreme temperature changes, the knocks, the humidity and the powder. A quality product within one of the most avant-garde series of the brand Simon. This rocker has a care finished in white colour, this product is also available in two colours. A series that offers a wide range of functions for the functional environments that require a high level of quality and design.
