Frame for 3 elements ivory Simon 75

REF. **75630-31**

BASIC INFORMATION

DESCRIPTION

The series of frames Simon 75 has products very versatile and designs extremely good-looking. This is the case of this frame for three elements in a beautiful ivory finish of colour. It is made from a material thermoplastically, that promotes the security of the product. This type of components, provides a halogen-free watertight in the event of a fire, preventing the propagation of the flame. It can be installed in two different shapes: Flush-mounted or on the surface-mounted and measures 82 x 230 millimetres. The total of the frame is variable, as it supports one to four elements in total. This frame requires an intermediate piece, if necessary. For its maintenance, it is recommended to clean the frame with a soft dampened cloths in soap and water, always avoiding the use of aggressive products containing chlorine. If we follow these recommendations for cleaning, the durability of the frame Simon 75 is Super high.

FINISH
