

Thermoplastic frame for 3 elements white Simon 31

REF. 31630-30

BASIC INFORMATION

DESCRIPTION

Frame made of thermoplastic material for 3 elements with white finish of the Simon 31 series. This is an article that has been manufactured in strict compliance with the regulation. It measures 224x80 mm and is capable of withstanding even the most extreme temperatures, although the ideal thing is to install it in environments where the temperature is between 24 and 40°C. Another interesting aspect of this frame is that it can be installed vertically or horizontally. With regard to its maintenance, it is advisable to use a soft cloth and moistened in soapy water and avoid cleaning products that are abrasive and contain chlorine., it is recommended to use the white finish for rockers and covers with the to combine this frame for a better effect. The Simon 31 series stands out for its timeless and functional designs that adapt to any ambience.
