

Diffuser cover green for signal light Simon 28

REF. 28065-30

BASIC INFORMATION

DESCRIPTION

Available in three finishes, the series 28 Simon presents the green diffusive Cover for luminous signalling. This cover, which is suitable for surface-mounted and recess, it has been manufactured in the best thermoset materials to provide maximum security to the electrical system and resistance to oxidation due to the conditions of the ambience. For this reason it is one of the most demanded elements of this range. Its low price makes many professionals choose this diffusive cover to perform refurbishments or other new in the electrical and electronic systems of large public and private buildings. This has been one of the keys that have made Simon the leader in the manufacture of elements in this sector. The highest quality at the best price has been the motto that have accompanied Simon since its beginnings.
