

Alta Wi-Fi Panel Heater

*Stylish, versatile heating
with Wi-Fi connectivity*

Alta Wi-Fi Panel Heater

The Scandinavian-inspired Alta Wi-Fi panel heater by Dimplex combines sleek, minimalist styling with intelligent functionality and remote control capability for ultimate convenience.

Alta Wi-Fi is ultra slimline, unobtrusive and lightweight. It features sleek rounded edges and fits seamlessly into any setting, whether it's a living room, bedroom, hallway, garden office or conservatory. Alta Wi-Fi is also ideal for waiting rooms, reception areas and small commercial spaces where aesthetics are a priority.

Alta Wi-Fi comes in a range of outputs and sizes to suit a variety of spatial requirements. To change its look, it can be transformed in seconds with elegant clip-on white or anthracite glass accessories (sold separately).

Alta Wi-Fi panel heaters are Lot 20 compliant and feature intuitive onboard user controls with a seven-day programmable timer, four time periods a day and five built-in pre-set modes. Quiet operation ensures a comfortable and enjoyable environment.

Built-in Wi-Fi makes Alta the perfect choice for users who want to control the comfort of their space remotely via the CapaConnect smartphone app, without the need for any add-on accessories.

The top-facing grille of Alta Wi-Fi delivers natural heat and maximises a room's comfort levels effectively.

Installation of Alta Wi-Fi is made simple with an H-frame wall mounting bracket and plastic tilt strap, and it comes with a 1.3m two-core fitted cable, for fused spur installation.

The highly accurate digitally controlled electronic thermostat efficiently regulates the desired space heating temperature.

Alta Wi-Fi is designed for maximum comfort and delivers great energy savings together with consistent, optimal performance of the home's space heating system.

CapaConnect app allows you to manage Alta Wi-Fi remotely:

- **Control:** Control multiple heaters in a single app.
- **User Access:** Share access with others in your home or remove those who no longer need it.
- **Lock/Unlock Product Controls:** Secure your heater by locking or unlocking controls to prevent unauthorised temperature changes.
- **Schedule:** Design a personalised heating plan for maximum comfort and energy savings.
- **Manual Override:** Swiftly bypass your schedule to conserve energy when departing home unexpectedly or to enjoy extra cosiness if you return sooner than usual.
- **Sites & Zone:** Organise your heaters into sites and zones, such as "Bedrooms," to manage them more efficiently and create unique schedules.
- **Updates:** Keep your heaters up-to-date automatically with Wi-Fi connectivity, ensuring optimal performance.

Perfect as a whole home panel heating system, as well as a standalone single controllable heater in garden offices, conservatories and garage conversions.

- Built-in Wi-Fi connectivity for remote control without the need for a separate hub or add-on accessories
- Lightweight, slimline design with a total wall projection of just 9cm, available in 40cm and 20cm heights
- Contemporary, Scandinavian-inspired design
- Customisable heating time and temperature settings
- Lot 20 compliant for increased energy efficiency
- Range of clip-on glass accessories, sold separately, for easy customisation
- 5-year guarantee with online registration

Alta Wi-Fi panel heaters are perfect for a range of applications:

New build houses and apartments

Residential refurbishment

Light commercial sector

Clip-On Glass Accessories

The innovative Clip-On Glass*, available in white and anthracite colours, changes the look of a room's interior in just a few seconds without any tools. The result is a clean and elegant glass surface. As it has no bolts, it can easily be replaced to match a new décor in the future.

*Sold separately
