

Portable Infrared Heater 600W/1200W with Oscillation

SKU Code: IH1032

Free Standing Infrared Heater, Radiant Heater, Efficient Heater, 600W or 1200W Power with Oscillation.

Features

- **AT ANY TIME OF THE YEAR:** This infrared heater ensures pleasant warmth indoors and outdoors in every season! Its compact dimensions and low weight mean that it is extremely mobile and can be used wherever it is needed
- **PERFECT HEAT DISTRIBUTION:** The infrared heater does not just heat the ambient air, but transfers the heat directly to the illuminated people and objects
- **POWERFUL:** For high heating power and effective radiation, the heating element of the ENER-J's free-standing Infrared heater comes with dual wattage option; 1200 or 600 watts - depending on your needs and the weather conditions
- **OSCILLATION FUNCTION:** It distributes the warm air at an angle of 360° or 120°. Depending on the selected angle, the column slowly rotates in the corresponding area and supplies the area to be heated optimally and evenly with heat.
- **Safety:** The device always remains easy to touch from the outside because of the coated cool-touch grille, while the integrated anti-tilting ensures reliable automatic shutdown

Specifications

Model No	: T01-G12Y
Voltage	: AC220-240V, 50/60Hz
Wattage	: 600W/1200W, two power settings
Heating Element	: Carbon fiber tube
Function	: Oscillation function
Installation	: Portable
IP rating	: IP34
Weight	: 3.54kg
Dimension	: 250 x 250 x 835mm
