

Technical Datasheet

DV12 - DV25 Compressor Dehumidifier

With Adjustable Humidistat

These compact energy efficient, low noise compressor dehumidifiers are our quietest models. Removing up to 25L per day in temperatures as low as 5°. They are perfectly suited for use in homes, conservatories, caravans, bedrooms, and offices.

These units even includes a laundry drying mode to prevent mould and damp in your home as well as a 12-hour shutdown/start-up timer, a child lock, and an adjustable humidistat between 30-80%. Washable Dust filter and durable HEPA filter. Helps to reduce dust and purifies the air. *Applies to DV20L & DV25L models only.
