

Retrofit Surge Protection Units

- Suitable for use on TN-C-S (PME) / TN-S / & TT networks.
- Provides protection against the effects of transient over voltages.
- Ideal for installation where it is not possible to accommodate a suitable surge arrester directly within the existing consumer unit.
- Designed and tested for use with Lewden branded distribution boards.
- 5-year warranty.
- Integral coloured flag indicating SPD health status.

SRG1VCU-RP

TECHNICAL DATA		REGISTRY	
Surge protective class	Type 2	Dimensions	226x118x102mm (HWD)
Manufacturing material	SELF-EXTINGUISHING THERMOPLAST	Net weight	0.84KG
Protection	MCB	Gross Weight	0.90KG
Description	cw Main sw, MCB & SRGT2CU	EAN Code	5026992043127
Frequency	50-60Hz	Min order quantity	1
Phase	1		
Rated operating voltage	230V		
Earthing Systems	TN-C-S-(PME)		
Earthing Systems	TT		
Earthing Systems	TN-S		
For cables ø	35mm ²
