

Technical Datasheet

DVRH Wi-Fi Radiant Heater

With Remote Control and Touch Control LED Display

These high-performance Devola radiant heaters have a sleek contemporary profile that will suit any domestic or commercial application. They feature a modern LED display which can be switched off if required. The units operates by transmitting infrared waves which when intercepted and absorbed are converted into heat. Infrared heaters convert electricity into radiant heat and work by heating people and objects, as opposed to heating the air in the space.

Features & Benefits

- ✓ Wi-Fi Enabled
- ✓ Open Window Detection
- ✓ 24 Hour Timer
- ✓ Child Safety Lock
- ✓ Overheat Protection
- ✓ Alexa/Google Home Enabled

Technical Details
