

40W 60X60 LED 2D MARINE CEILING PANEL

SKU Code: E803

LED Marine Ceiling Tiles 40W 600x600mm 2D Effect Panels

Description

Our range of LED picture light panels for your ceilings create mesmerising and exclusive looks to any room, retail shops, offices and hospitals. The "Marine" LED panels are a look from the deep ocean that can encourage a calm feeling to any room.

Set of four, 600x600mm, recessed LED panels. 2D Marine imagery ideal for illuminating areas that don't have any natural light.

Some of the benefits of choosing an LED MARINE CEILING include:

- An improved mood from use of light that mimics natural light.
- Alleviation of anxiety and stress due to the sense of outdoors.
- Catching the attention of visitors with a unique design feature.

By simulating daylight with the right LED panels and using realistic, high-resolution pictures, you will feel as if you are inside under a Marine. The colour hue of the LED panels matches with that of real daylight to give the impression of looking through a window.

These 2D panels are suitable for domestic or commercial spaces such as places of education, healthcare sectors, waiting rooms or sensory rooms, the applications to this amazing revolutionary light panel is endless.
