

## OFXE Oil-filled Radiator

## Product Description

OFXE oil-filled radiators are suitable for domestic and commercial premises, providing a balance of convected and radiant heat just like a conventional radiator, but with the added advantage of 'plug-in' portability.

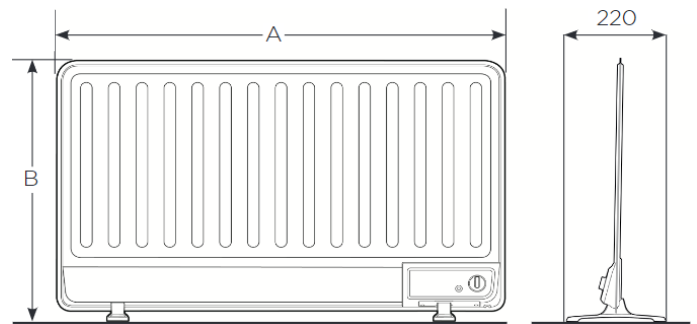

## Key Features

- Oil-filled for uniform heat distribution
- Epoxy-polyester powder coated steel casing
- Manually adjustable rotary mechanical thermostat for temperature control (5 to 30°C)
- Neon 'Power On' indicator

## Technical Details

Controls	Manually adjustable rotary thermostat (5 to 30°C)
Construction	Durable epoxy-polyester powder coated steel casing
Element	Compact, finned, mineral-filled sheathed type
Installation	Plug in and go, supplied with cast aluminium foot kit
Safety	Dual cut-outs, auto and manual reset
IP Rating	IP20
Supply	1.3 metres 3 core cable with fitted UK plug 1/N/PE ~230-240 V, 50Hz, Class I, with earth wire
Colour / Finish	Metal Chassis - Traffic white (RAL 9016) Control mouldings - Traffic white (RAL 9016)
