

# 406

## Water repellent, breathable, fully latex coated thermal glove

A durable, water repellent, insulated grip glove that is designed to protect down to -30°C for short or intermittent contact

### Features

- Protects hands down to -30°C for short or intermittent contact
- Water repellent surface combined with thermal liner keeps hands warm and dry
- Aerated material reduces heat loss via conduction and eliminates convection by trapping warm air inside the glove
- Engineered liner and foam latex dissipates sweat and moisture to prevent hands getting cold
- Coating technology enhances high level of flexibility and reduces fatigue
- Suitable for contact heat resistance up to 250°C (approx. 15 seconds)
- Suitable for contact heat resistance up to 250°C (approx. 15 seconds)
- Seamless liner prevents irritation
