

# FROGWEAR™ DISPOSABLE CLOTHING

## FrogWear™ Premium, Blue, Self-Extinguishing, Anti-Static Disposable Coveralls with Boots and a Hood

### Description

These premium disposable non-woven coveralls are blue 65-gram anti-static self-extinguishing/flame-retardant spun lace material and have serged seams. The reinforced triangle crotch provides tear and rip resistance, while the storm flap over the zipper closure keeps elements from reaching the user. This coverall features an attached hood and boots. There is elastic on the hood, waist, and wrists for a secure fit. The coveralls are self-extinguishing as defined by ASTM D6413.

ITEM **NW-COV850FR** SIZES **L-5XL**

### Features

- Self-extinguishing as defined by ASTM D6413 (less than 2.0s flameout / less than 6-inch char length). This garment should never be used where an arc flash or flash fire hazard is present.
- Made from anti-static self-extinguishing/flame-retardant spunlace material
- Commonly worn over top of primary flame-resistant clothing to help protect and expand the life of expensive flame-resistant clothing from dirt, debris, oils, splashes, etc.
- Breathable
- Reinforced triangle crotch provides additional tear and rip resistance when squatting
- Attached hood and boots provides protection from head-to-toe
- Elastic hood, waist, and wrists allow stretch while maintaining a snug and comfortable fit
- Zipper closure with storm flap
- Serged seams
- Designed for single-use
- Packaged: 25 pieces/case
- Meets ANSI/ISEA 101-2014 sizing standards
- EN 1149-1: 2006 (Protection against antistatic): Pass

\*Designed to be worn over flame-resistant garments. This garment should never be used where an arc flash or flash fire hazard is present. This garment is not flame resistant rated. Do not use this garment for primary fire protection. This flame retardant garment is intended to provide secondary protection and is meant to be worn over your primary protective garments. Avoid open flame or intense heat.
