

XW300

Water repellent, breathable, fully latex coated thermal glove with high cut protection

A durable, cut-resistant and water repellent, insulated grip glove that is designed to protect down to -30°C for short or intermittent contact

Features

- ▲ Protects hands down to -30°C for short or intermittent contact
- ▲ Seamless knit liner made of nylon, acrylic and Kevlar provides high cut protection
- ▲ Water repellent surface combined with thermal liner keeps hands warm and dry
- ▲ Engineered full foam latex coating with second latex coating on palm
- ▲ Aerated material reduces heat loss via conduction and eliminates convection by trapping warm air inside the glove
- ▲ Coating technology enhances high level of flexibility and reduces fatigue
- ▲ Suitable for contact heat resistance up to 100°C (approx. 15 seconds)
- ▲ Orange colour enhances safety in low light conditions

Certifications

Suitable industries & applications

Industries

- ▲ Construction
- ▲ Highways and Infrastructure

- ▲ Utilities
- ▲ Waste and Recycling
- ▲ Home and Garden

Applications

- ▲ Insulation
- ▲ Labouring
