1.

Drill a hole (size as above) in the wall. The distance is based on the products.

2.

Take out the plastic cover, insert wall plugs, locking with the screws.

3.

Fit on the plastic cover.

4.

Finished.

#### CLEANING:

Never use abrasives or abrasive cleaning agents to clean this product. Clean regularly with contamination free warm soapy water and a damp soft cloth.

A filter washer should be installed in the hose cone on the water outlet and it should be cleaned periodically.

If shower performance is compromised by the build-up of lime-scale, soak in distilled vinegar for up to 10 minutes. Do not use products containing chlorine bleach or hydrochloric acid as these can damage the shower. Always rinse the shower thoroughly after cleaning to remove cleaning products that can damage the shower.

Never insert objects into the spray slot or attempt to remove limescale with sharp objects or abrasives.

**IMPORTANT:** Please read all of the instructions before installation.

General:

- 1.This product must be installed in compliance with all relevant regional regulations.
- 2.It is the responsibility of the installer to ensure a waterproof seal is achieved between the product and mounting surface. If in doubt about the quality of the seal, remove the product and reinstall using silicone to ensure a seal is achieved.
- 3.All pipe work must be thoroughly flushed prior to the installation of the hose.
- 4.After installation all connections must be checked for leaks.
- 5.All outlets used primarily for personal hygiene shall deliver water at a safe temperature as per regional regulations.
