

56.1061 (600*800MM) INSTALLATION

INSTALLATION GUIDE:

1. Position the mirror at the hanging point and mark the drilling holes; Ensure the two drilling holes are on the same level. Drill the holes, then insert the plastic plugs into the holes; Fix the wooden bracket of the mirror to the wall with the screws and then connect the electric wiring.
2. Place the mirror on the crossbeam of the wooden bracket; Adjust and position the mirror in the middle of the wooden bracket.
