

Installation Guide

1 Parts

NO.	Description	Qty
1.	Stainless Steel Hinge cap	2
2.	Bolt	2
3.	Washer	2
4.	Hinge Base	2
5.	Rubber Cork	2

2 Installation Guide

1. Insert the screw set on the hinge base through the holes on the pan.
2. Tighten the seat screws, but not fully allowing you movement to adjust the seat cover properly
3. Aim at the holes and adjust the hinge base to make the seat cover and pan match.
Take out the seat cover once the installation position is confirmed.
4. Fix the hinge base on the pan firmly.
5. Put the cap into the hinge base.
6. Fix the seat cover into the hinge base.

SEAT COVER

3 Innovation Functions

Please abide by the following illustrations to ensure safety

Please read this notice carefully before operation.
This manual list many different kinds of warning marks to avoid injury to your body or loss or damage of property. The marks and explanations are as follows, please keep in plain sight.

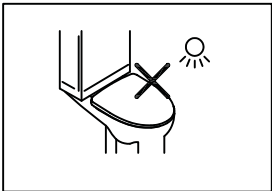

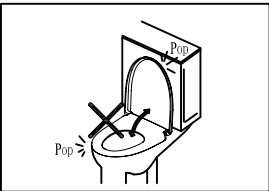

Warning! It may cause injury to your body or property damage if you ignore this mark.
● means "forbidden".

4 Relative Notice

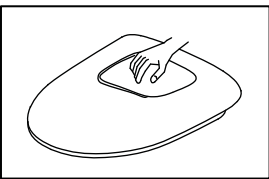

Open and close the toilet sear cover tenderly
(or this may cause this to crack)

Avoid sunlight and other artificial light
sources (or this may affect the colour)

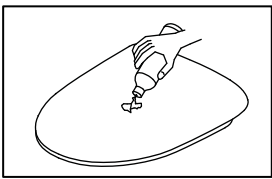

- Both the toilet seat and cover have the function of slow closing
- The closing speed varies dependent on room temperature and usage frequency
- Please open the toilet seat and cover completely, otherwise the functionality of slow closing will fall and may cause injury to fingers or other body parts

5 Maintenance

- 1.Periodical maintenance
- Wipe gently with wet fabric.
 - Wipe of dirt
- Wash this with neutral cleaners (such as soap powder) gently drying with clean fabric

- 2.Cleaners
- Do not wipe or wash the toilet seat and cover with abrasive powder or cleaning products
 - Do not use disinfectant, germ cleaner or other aerosol cleaners
 - Please note that some chemical and cosmetics used in the bathroom may damage the toilet seat and cover
